Company Profile

Stewart Engineering Works (S) Pte Ltd has been serving customers in both the marine and oil & gas industry for the past 40 years.

We have our own engineering facility to perform engineering projects, such as fire pump, power pack, wire-line units, pump for oilfield application and many diesel engine driven equipment and overhaul services for diesel engine of various brands. We can perform repair services on subcomponents such as turbochargers, fuel pumps, injectors, nozzles, blowers, starters and alternators.

We also have another trading division to support after-sales service by supplying the necessary engine parts and accessories required by the maintenance requirements. We have a huge inventory to support the needs of our client.

As we understand the customers' needs and requirements in terms of both specifications and budget, we strive to deliver our utmost level of service in order to achieve that. With that experience, we are able to deliver additional value to our customers.

In 2012, we have received the following accolades, "Singapore Outstanding Enterprise 2012", "Circle of Excellence in Offshore & Marine Industry 2012/13", and "Appreciation Award - 36 years of Business Partnership with HDB". This is testament to our hard work in the last few years.

Main Activities of our Company

Stewart Engineering Works (S) Pte Ltd has been providing tailor-made, hands on, and customer friendly Engineering and Pumping solutions in both the marine, oil & gas industry. We have our own engineering facility to perform Engineering Projects, such as fire pumps, power pack, wire-line units, and many diesel engine driven equipment and overhaul services for diesel engine of various brands. We understand the customers' needs and requirements in terms of both specifications and budget and we strive to deliver our utmost level of service to achieve that. With that experience, we are able to deliver additional value to our customers.

We have a good reputation both domestically and internationally in the field of supplying Pumps, Engines, parts and accessories. We have actual hands-on experience repairing, overhauling and handling of engines and parts. With this ability, we are able to provide extra value to our customer, and additional advice on how to achieve better efficiency so as to reduce maintenance costs.

ENGINEERING/PARTS

We have 2 divisions within our Company:

A) Engineering Division

Our Engineering Division has the capability to design and manufacture the following equipment, coupled with diesel engines.

- Hydraulic Powerpack (Up to Zone 2 requirement)
- Pumps (For Liquid Mud Pump, Circulation Pump built to DNV Standards etc.)
- Fire Pumps (FF1 requirements)
- Generators / Compressors
- Wireline Units / Slickline Units
- Service & Overhaul of Diesel Engines
- Repair & Overhaul of Diesel Engines
- Repair & Overhaul of Turbochargers, Fuel Pumps & Blowers
- Repair of Injectors & Nozzles
- Repair of Starters & Alternators

It is our motto and objective to design and build the most suitable equipment to suit your needs and requirements, in terms of both technical specification and budget.

We have our in-house engineering facility with the capability and capacity to rebuild, overhaul and service engine and components. We have a complete range of engines that we can ship at short notice. In addition, should any parts be obsolete or not available in the market, we are able to dismantle from our existing stock of engines for your needs. This will ensure minimal down time on your end, which is a critical factor in the industry.

Qualified personnel are present to serve and overhaul rebuilt diesel engines for Detroit Diesel, CAT, Cummins, Deutz, Perkins, Ford, Hino, Gardner Denver and numerous makes/brands.

We have ready stock of new and rebuilt Detroit Diesel engines (71 series, V71 series, 53 series, 92 series, 149 series, series 50, 60 among other models), CAT engines, Cummins engines, Allison Transmission, Twin Disc, Gear Box, Mission Pumps, PEC PTO and MCM Pumps.

As we understand the need to minimize down time in the marine and oil & gas industry, we are always equipped with units ready to ship 24 hours a day, 7 days a week.

Power Pack

B) Parts Division

We are the Distributors and Stockists of spare parts for Pumps, Diesel Engines, Diesel Engine Driven Equipment and related accessories for the following brands:

- Detroit Diesel
- Murphy
- Allison Transmission
- Kent Moore
- Kocsis Technologies (American Bosch)
- Atlas Copco
- ACP Pumps
- Ingersoll-Rand
- Gardner Denver
- Stewart Warner
- Lister
- Twin Disc
- Amot Controls
- Perkins
- General Motors
- Sentinel
- Bendix
- VDO
- Delco Remy
- Chalwyn Shutdown Systems
- Mission Pump / MCM
- GRINDEX Submersible Pumps
- Donaldson Mufflers & Rain Caps
- Farr Filters
- Racor Filters
- Jabsco Pumps & Impellers
- Cummins
- Caterpillar
- Bob Cat
- Parker
- Westerbeke
- Hino
- Hitachi
- Isuzu
- Kato
- Kobelco
- Komatsu
- Mitsubishi Fuso
- Nissan
- P & H
- Sumitomo
- Tadano
- PEC PTO

Make us your single source for these popular products at competitive prices. We have parts ready to ship to all regions 24 hours a day, 7 days a week.

We are able to source many oilfield products (both popular and unique) such as:

- Parts for Halliburton HT 400 pump
- Inserts & Tong Dies for Rotary Slips, Manual Tongs, Slip Elevators, Casing Slips, Drill Collar Slips, Safety Clamps, Tubing Spiders, and Power Tongs
- Complete Drilling Tool Assemblies – Rotary Slips, Elevators, Manual Tongs, Safety Clamps, Casing Slips and Drill Collar Slips
- Complete Well Service Tool Assemblies – Tubing Tongs, Tubing Spiders, and Oil Savers
- Steelmaster Brake Rims & Bands for most models of Drilling & Service Rigs
- Brake Blocks for most models of Drilling & Service Rigs
- Rubber Products – Guiberson type Tubing & Casing Swab Cups, Oil Saver Rubbers and BOP Rubbers
